

Sharewall

Create • Communicate • Collaborate

Expand Your Reach

- **Lightweight and flexible, Sharewall™ installs as easily as other wallcoverings with simple instructions for time and money savings.**

- **Specially engineered aluminum steel alloy creates a remarkably durable, pliant and versatile surface that lays flat to facilitate easy application of adhesive.**

- **There are many options available for layouts and configurations to work in your space. Glossy and projectable surfaces for every application.**

- **With Sharewall's superior performance, low maintenance, and 50 year guarantee, make your wall the best available, for life.**

COMMUNICATE

create

collaborate

- With Sharewall™ you have an endless array of options for mounting styles and configurations, from horizontal, vertical, railroad, framed and unframed to suit your space.
- Unlike paints and films, Sharewall™ is engineered from a porcelain coated aluminum/steel alloy for the ultimate in flexibility making it ideal for pillars and curved walls.
- The aluminum/steel alloy is magnetic and can be mounted with either foam tape or mastic to conform to a variety of surfaces.
- When unrolled, the lightweight surface remains flat so adhesive application and installation is a snap!
- Sharewall™ can be overlapped or butted together for nearly invisible seams in any location.
- The Sharewall™ surface is durable, and will erase cleanly, even after heavy use. Other markerboard surfaces can become stained with frequent use over a short period and can be difficult to clean. Sharewall surfaces will not retain "ghosts" of past images or develop that overall foggy appearance that is seen with many markerboards.
- Works with accessories, markers and Magnetic Q-Tray.
- Available in glossy off-white, matte off-white or matte grey for an enhanced projection clarity and minimized glare.
- Sharewall™ emits no VOCs for improved indoor air quality.
- Unique trim options available. See back page for images!
- 50 year surface guarantee and TAA compliant.
